CAPABILITY STATEMENT

Highmark Companies provides information technology and professional services to the federal government, state and local governments, and private industry. Highmark has a healthcare practice area that serves both private and public sector healthcare clients. Highmark has experience with Medicaid Management Information Systems, electronic data interchange with EMR systems, and management of major healthcare technology initiatives. Our team of healthcare subject matter experts and project managers can assist our customers with business process improvement and information technology initiatives.

Highmark's philosophy has four cornerstones that differentiate us from other companies:

- maintaining a company-wide focus on the client
- fostering an employee-friendly company
- investing strategically in our back office infrastructure
- promoting good corporate citizenship by giving back to the communities where we work and live

Highmark delivers exceptional results by combining a qualified team of professionals with proven methodologies and innovative technology.
