CAPABILITY STATEMENT

Highmark Companies provides information technology and professional services to the federal government, state and local governments, and private industry. Highmark's current ownership group previously launched, grew, and sold Milestone Group (a very successful \$25 million federal services contractor). Milestone Group was recognized by Inc. magazine as one of the 500 fastest growing privately held companies in 2003, 2004, and 2005. Highmark expects 25% growth and over \$14 million of revenue in 2011.

Highmark's philosophy has four cornerstones that differentiate us from other federal contractors:

- maintaining a company-wide focus on our clients
- fostering an employee-friendly work environment
- investing strategically in our back office infrastructure
- promoting good corporate citizenship by giving back to the communities where we work and live

Highmark delivers exceptional results by combining a highly qualified team of professionals with proven methodologies and innovative technology.
